Reflecting upon Unreal II, we have a collection of sounds that offer a glance into the unique world of Scarlet's Well, The Monochrome Set, and of course Bid. This particular view is seen mainly from individuals outside of Bid's bands, often from environments that were a flash in the pan (Bid and each band only played one or two shows). While this album contains straight studio songs, most are live takes backed with only one or two band practices prior to show time, 'warts and all'. In some cases, we have captured the absolute first rehearsals just moments after the band and Bid met (Jet Set Junta, Fat Fun...).

Thanks to all contributing musicians and a special thanks to Foz, who added an array of instruments to Dream Spider and who was kind enough to include two of his own recordings.

~Brian Nupp, December 2009~
